NOTE TO: Chief, CRES

FROM : Deputy Director for Intelligence

25X1

SUBJECT: Directorate Training on Collection and Requirements

1. I mentioned in my speech on 29 January the high priority need for a Directorate-wide program to educate (or at least refresh the memories of) analysts on how to use the variety of technical collection systems as well as HUMINT tasking. My concern focuses particularly on the technical systems

2. I would like for you to discuss this with the Office Directors, develop a training program of briefings and seminars (which would not be optional for analysts). As we have talked informally, you may want to consider having a deputy for whom at least initially this would be his primary responsibility. I want to get started as quickly as possible on this. It may be that the need is greater in the regional offices than in places like OSWR or some parts of SOVA. This is something you will need to determine. I will advise the Office Directors at staff meeting that you and your staff will be in touch with them to discuss needs, numbers and so forth. I would like to have this planned program by 22 February.
